

The **National Society of Leadership & Success (NSLS)** is a leadership skill building society that allows students to learn teambuilding skills, self-motivation tips, and how to create and implement academic & life goals. Vol State sends invitations twice per academic year to students with at least a 2.5 GPA and 6 college credit hours.

The Vol State chapter is an online chapter developed to support members' busy lifestyles and allow you to complete the steps to membership on your own time. The program is conducted entirely online with an online-based advisor available to support you.

Students who pay the fee to become members must complete the following steps to become Inducted members:

- Login to your NSLS account to participate in a NSLS Orientation session on your own time
- Login to participate in a Leadership Training session on your own time
- Watch three Speaker Broadcasts on the NSLS website
- Submit three SMART goals on the NSLS Website
