

Name of Program: Radiologic Technology

In some states, you must obtain a state license before you can work as a radiologic technologist there. That differs from ARRT certification and registration.

If you want to become certified and registered with ARRT, you must meet our requirements and apply to ARRT. If you want to obtain a state license, you must meet the individual state's requirements and apply directly to that state.

More than 75% of states have licensing laws covering the practice of radiologic technology. In those states, you must obtain a state license before you can work as a radiologic technologist. In addition, many states use ARRT exam scores and/or credentials when making licensing decisions. In other words, some—but not all—states require you to be certified and registered through ARRT before you can obtain a state license.

The State Licensing Requirements should indicate if the program curriculum **Meets** the requirements in these states and US Territories, **Does NOT meet** the requirements in these states and US Territories or **Undetermined** if the program has not yet determined if the curriculum requirements are met for these states and US Territories.

List Disclosures by State

States and Territories	State Licensing Requirements	Name, Address, & URL of State Licensing Board or Department
Alabama	None	N/A
Alaska	Meets	STATE PUBLIC HEALTH LABORATORIES RADIOLOGICAL HEALTH 5455 DR. MARTIN LUTHER KING JR AVE. ANCHORAGE, ALASKA 99507-1270 http://dhss.alaska.gov/dph/Labs/Pages/radiological/default.aspx
American Samoa	Undetermined	N/A
