

Name of Program: Diagnostic Medical Sonography

Narrative: The profession of Diagnostic Medical Sonography (DMS) is largely regulated at the national level. Developments in the past 13 years have resulted in state licensure requirements in four states; New Hampshire, New Mexico, North Dakota, and Oregon. The DMS program at Volunteer State Community College meets all requirements at the national level to sit for board exams. All state licensures require passing multiple national board exams to be a credentialed sonographer and have no specific curriculum requirements.

The State Licensing Requirements should indicate if the program curriculum **Meets** the requirements in these states and US Territories, **Does NOT meet** the requirements in these states and US Territories or **Undetermined** if the program has not yet determined if the curriculum requirements are met for these states and US Territories.
